

# UNPRECEDENTED ACCESS TO KSA

Bahrain offers the fastest and most efficient access to the largest market in the GCC, Saudi Arabia, via the King Fahd Causeway. The 4 lane, 25km causeway offers an efficient transit for 100s of trucks a day, making 75% of the Saudi market accessible in a 24hr timeframe.

## UPCOMING KING HAMAD CAUSEWAY

A bi-modal network that will connect Bahrain to the rest of the GCC via road and rail. It will run parallel to the existing King Fahd Causeway, reducing traffic and decreasing travel and transport time considerably. Scheduled for completion in 2026, the new 25 km causeway is a US\$ 4 billion investment.
